[Continue Browsing](#) [Shortlist](#)

Step 5: Click on Continue Browsing to view more products or click on Go To shortlist to view all shortlisted products.

Item shortlisted successfully.

[Continue Browsing](#) [Go To Shortlist](#)

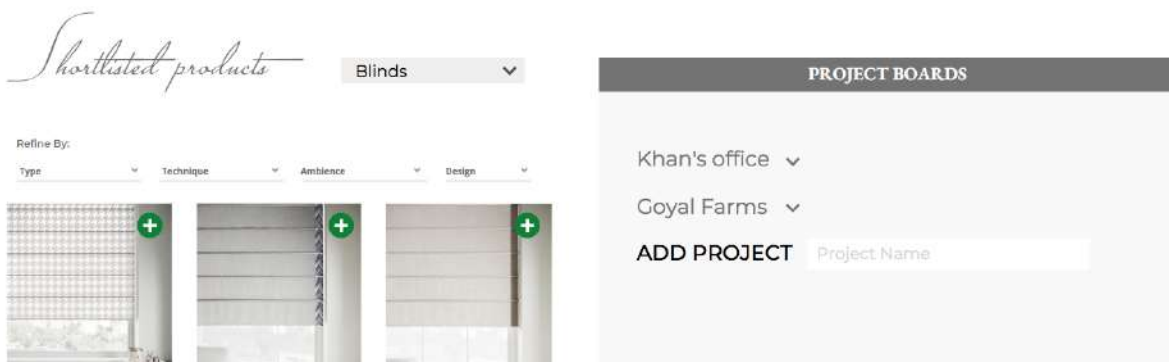

NOTE: You can directly shortlist products by clicking on shortlist product in case you do not want to calculate estimated pricing.

>>How to create Project Boards and share them with your client?

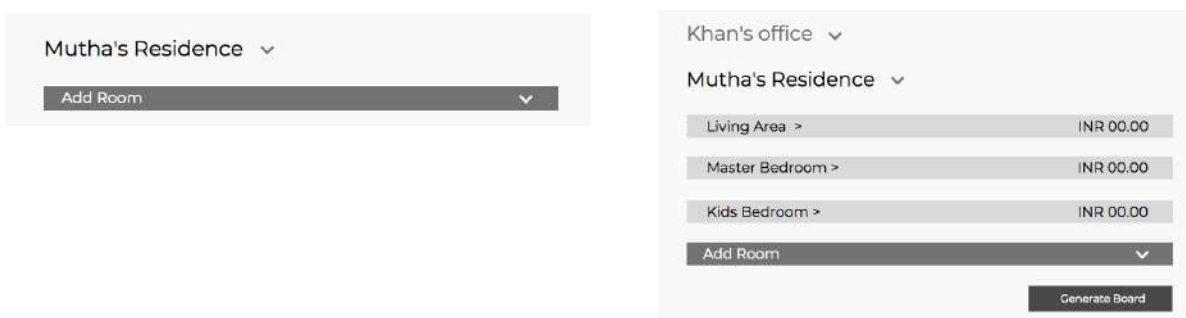

Step 1: Go to SHORTLISTED and Click on CREATE PROJECT BOARD.

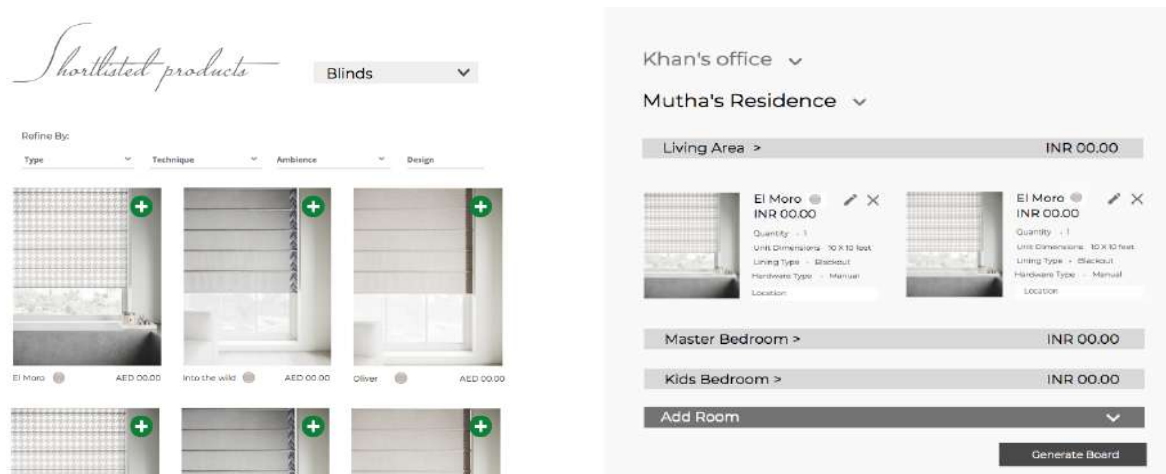

Step 2: A new window with projects will open. Add a new project.

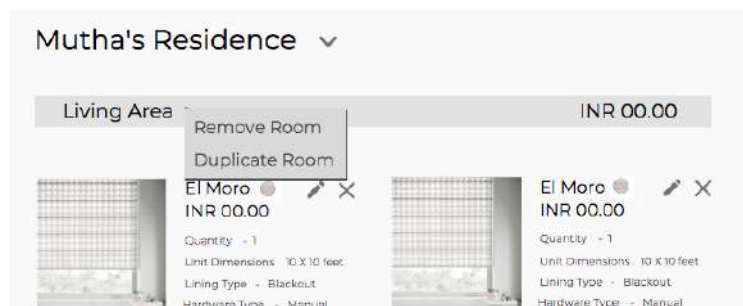

Step 3: Add rooms to your project.

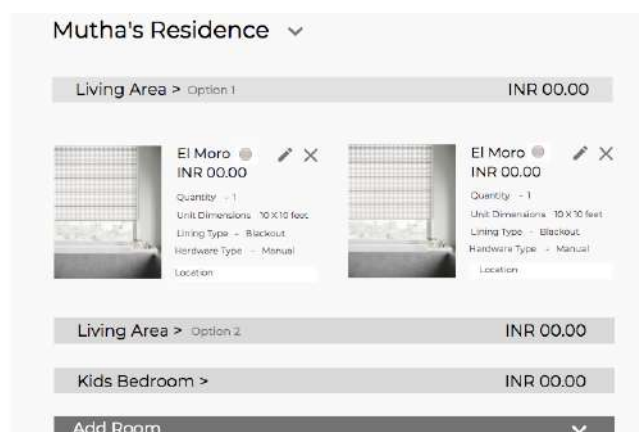

Step 4: Add Products to your room by clicking on the  sign and feeding in your requirements in the pop-up.

Step 5: Remove the room or create an option by clicking on duplicate room.

Step 6: The Room will duplicate itself and you will see option 1 and option 2. Make changes and create multiple options for a particular room.

Step 7: Generate Board after you complete the project. Project estimate will auto-calculate Room options with maximum value.
